ABOUT ME

I am a software developer and Master of Science in Computer Science from the University of Helsinki (2025), with a background as an art teacher. I have over 6 years of hands-on experience as a software developer at Foreca, where I was responsible for Full Stack development and maintenance of consumer weather services, a B2B developer portal, and dynamic weather applications. My core expertise lies in modern web development — particularly Node.js, React, TypeScript, and Next.js. In addition to my technical skills, I have an exceptionally strong visual eye from my background as an art teacher.

My core expertise lies in modern web development — particularly Node.js, React, TypeScript, JavaScript, and Next.js. My experience with weather applications includes fetching dynamic data from APIs and utilizing map libraries (Leaflet, MapLibre). Git version control and working in terminal environments are fluent tools for me. I am also familiar with agile methods Kanban and Scrum. In my work, I have actively adopted AI-assisted development tools such as GitHub Copilot and Claude Code.

In addition to my technical skills, I have an exceptionally strong visual eye: my background as an art teacher and the graphic work I did at Foreca — such as UI design, data visualization, and weather animations — translates into a hands-on approach to front-end development.

I am a social, positive, and creative team player, often described as an approachable colleague. I work smoothly in multidisciplinary teams with both technical and business professionals. My natural drive to keep learning constantly pushes me forward: I am currently deepening my knowledge in generative AI, RAG-based applications, and DevOps and cloud services.

WORK EXPERIENCE

IT sector:

SOFTWARE DEVELOPER

2020-2026

Foreca

COURSE ASSISTANT

Summer 2019, Autumn 2019

Department of Computer Science, University of Helsinki

Education sector:

ART TEACHER

2011-2018

Munkkiniemi School

TEACHING AND INSTRUCTIONAL ROLES

2003-2011

I worked in diverse teaching roles as an art and physical education subject teacher and class teacher at various grade levels in primary school, upper secondary school, high school and vocational school. Also as headmaster and instructor at summer camps.

LANGUAGE SKILLS AND EXCHANGE STUDIES

FINNISH

ENGLISH

FLUENT

SWEDISH

GOOD

FRENCH

BASIC

Cyprus Finnish School, Teaching practice

Autumn 2001

Malmö University, School of education

Spring 2000

Haagse Hogeschool, The Hague, Netherlands

Autumn 1999

ACHIEVEMENTS AND CERTIFICATES

Claude Code: A Highly Agentic Coding Assistant | DeepLearning.AI | Issued June 2026

Full Stack open, Helsinki university course studies 2019

Honours Programme Scholarship, University of Helsinki 2019 – awarded for academic excellence in Computer Science.

2nd Place, Beginner Compo, Graffathon 2019 – Aalto University Digital Media Club.

CIVIC AND VOLUNTEER ACTIVITIES

Academic Wine Society, equality and environmental officer

2018

KOL Board, student member

2004

AIESEC, trainee mentor

1998-1999

Tutor for new students

1998

Upper secondary school student council, secretary and treasurer

1993-1995

HOBBIES AND STRENGTHS

I paint with oils and keep active through dancing, yoga, and aerobics. My strengths include creativity, positivity, and strong organisational skills — paired with a natural curiosity and a drive to keep learning.
